Coding/STEAM Educator

SUMMARY

Certified Visual Arts educator with five years' experience teaching computer science, engineering, and visual arts as a co-teacher and as a specialist, as well as personal experience using computational thinking and coding to create art. Passionate about collaborating with fellow educators to integrate STEAM disciplines and enhance students' learning as they make connections across the curriculum. Experienced in implementing Project Lead The Way elementary computer science and engineering modules and in developing standards-based curriculum as a K-12 subject area specialist.

OBJECTIVE

To obtain a teaching position in a setting where I can impact students through their exploration of technology, arts, and other subjects, create an environment for learning, curiosity, and creativity, and collaborate with other teachers to develop and integrate the curriculum across disciplines.
